Twinkle's the Tooth Fairy Presentations

Who we are?

Dr. Pearson is a Board Certified Pediatric Dentist. He has been practicing dentistry since 1999. He has had a thriving pediatric dental practice in Wylie since 2003 that has been providing excellent dental care to children that live in Collin County as well as many surrounding areas. He has devoted his life to improving the lives of children through regular positive dental visits as well as continued encouragement and education through our Tooth Fairy school program.

What we do!

We have our own "In-house" Twinkles the Tooth Fairy. Twinkles will provide your group with a completely free oral health care presentation. Twinkles really enjoys working with children and takes pride in developing age appropriate presentations that are fun, exciting and informative. Her presentations encourage the kids in verbal and "hands-on" participation. She will cover such topics as proper brushing and flossing, benefits/risks of toothpaste, healthy foods vs. cavity promoting foods, as well as demystifying any concerns about their visit to the dental office. She uses simple, fun props such as a 5 foot tall toothbrush. She provides every child at the presentation with a free goodie bag that includes a toothbrush. We have been told by many teachers, nurses and parents that their kids come home so excited about their teeth that they can't wait to start brushing the Tooth Fairy way.

Our Mission

The mission of Twinkles the Tooth Fairy is to promote oral health care for children in our community while at the same time, providing education and motivation to improve the children's oral health care practices. We provide visits to all local schools, day care centers, church groups, mom's groups, health fairs and local community events.

A few things you should know

Because these presentations are 100% free, our tooth fairy stays extremely busy. Consequently, we have to limit our school presentations to grades Pre-K through 2nd grade. We have found that these are the most impressionable and motivational years for our presentations. We provide presentations to several schools per day. In order to keep our Tooth Fairy's schedule on time, we ask that the kids are gathered into a large area such as a gymnasium, library or auditorium for the presentation. We can present to all the kids in grades Pre-K through 2nd at the same time, if all the kids can easily be accommodated into one large area, or we can present to each individual grade level or multiple grade levels. Unfortunately, we cannot provide presentations to each individual classroom due to our busy and limited schedule.

We encourage you to continue the tradition of promoting dental health by inviting Twinkles the Tooth Fairy to your school, daycare and events.

Sincerely,
Dr. Allen I. Pearson and Staff

Please fill out this page and FAX it back to us at 1-877-408-1602 or scan and email marketing@pedogroup.com and we will call you to confirm.

Twinkles sprinkles fairy dust on children as they leave, if you do not want students to have fairy dust, please let us know. THANK YOU!!

What we need from you? We just need to know when, where, what time and how many kids will be at the presentation. That's it! Once we have this information, we will add you to our schedule and Twinkles the Tooth Fairy will begin preparing the goodie bags.

School Name: _____

School Address: _____
